

## Prime Minister's Message

What a fun time the 16 members of BBMGs had at our February St. Patrick's Day meeting at the Thompson's on the 17th. Everybody wore something green and brought something green to eat for lunch, which means we were "going green" that seems so popular these days. Sliced ham and water rolls completed the delicious buffet of salads, casseroles and veggies, both raw and cooked. Crystal Light raspberry tea was served along with green Hawaiian Punch but alas, no green beer. Dessert was a decorated sheet cake prepared by Jan Gardner and every bite was eaten. Along with the good food, we shared some laughs and even some green door prizes were handed out. We missed many of you and hope your day was as enjoyable as ours. Our business meeting is covered in the minutes by our recording secretary Tom Phares, so I won't go into the details, other than to mention the upcoming GOF South at Jekyll Island April 2022 that several of us are planning on attending. It's still not too late to jump in and go if your calendar allows, so give it some thought.

Living in Tallahassee is a real experience in the spring, as the oak tree pollen turns the land into a pallid yellow and tests the limits of your allergies. Oh, the joy of extremely dry weather with no rain to wash it all away. Soon there will be the big heat wave as air conditioners crank up, if you haven't already turned yours on. Now is the time to get out there and enjoy the top back on your MG while there is still bearable weather.

Our April meeting will be the third Tuesday of the month, on the 17th to be exact, and we will convene at OLD TOWN CAFE at 7 pm for dinner at 1415 Timberlane Road in Tallahassee. We will have our own area to dine and probably not a formal meeting but more of a gathering. We will order from the menu and there is a full bar.

I am sure by then there will be several topics for discussion. Keep in mind that JP Brown and the various committee chairs are working diligently to be ready for the 2007 Rendezvous. The details are many but our crew is working on it. The application draft has been completed and is being proofed before going to press. Our club has been invited to attend the Quincy Jazz Festival on May 5th for a day of barbecue from any of 20 different vendors, excellent music and shiny British cars for the public's viewing pleasure. There will be more details at the meeting of where to meet and when, so come on out and join us on the 17th.
