

Prime Minister's Message for September 2007

Even though it is hotter than blue blazes and most likely will continue to be through September, cooler weather HAS to be coming soon, but not soon enough. With the cooler weather come Fall events, which means driving our cars on tours and having fun. Oh yeah, football also. Some of us will be in **Hiawassi** for the **GOF** September 7-9th admiring the British cars and soaking up the mountains of North Georgia where we hope for a little cooler climes. **Saturday, September 15th** will be our next meeting for BBMGs for a breakfast get-together at **Hutton's at 9 am**. I am sure there will be some discussion on the status of Rendezvous 07 and a general overview of what needs to be done. We are getting closer and it is exciting to think about what a good time this is going to be. Oh, Huttons (formerly Torrey's) is at 1415 Timberlane Road, or behind Old Town Restaurant. Breakfast prices are very reasonable.

Another event that may be of interest is an all **British swap meet** at Jerry Wise's property in Gadsden County Saturday, September 22nd with food, some vendors and plenty of British parts to look over. There is no entry fee and you can bring some of your surplus parts to try and sell if you like, or just show up to look. There is talk of another auction like last year, where you can pick up some great deals on donated British car parts and related items. It kicks off about 10 am and winds up around 3 in the afternoon.

If that doesn't suit your fancy, then consider an all car club event on Saturday, September 29th at Lee Vause Park from 9 am to 3 pm. Plans are in the making to possibly move it to the new antique car museum at I-10 and Mahan if it is open by then. It's called the **Motorama** and every car club in Tallahassee is invited. It's for a good cause for the Food Bank and FHP. Everyone is asked to bring one non-perishable food item and one stuffed animal for the Florida Highway Patrol troopers who give them to kids involved in accidents to relieve the stress. Each club is asked to bring one item for a raffle to raise money for the Food Bank as well. The plans are to just show and shine cars, enjoy food vendors, listen to DJ music, admire cars, mingle and mix. That's just September, a warm up for the big event **Rendezvous 2007** October 12 & 13th here in Tallahassee. I hope by now everyone has registered to attend this event to help support our club and have a great time. It's also a good time to think about detailing our cars to make them shine for the event.

Our last meeting in August was a lot of fun and with a great turn out. We have some interesting new members we need to welcome and get to know. As our numbers increase, so does our opportunity for more activities to do as a group - get out there and ride.

Safety Fast!

Bill
